THE BOLD LOOK  
OF **KOHLER**<sup>®</sup>

Alone on a secluded shore,  
the pounding surf resounds  
in your chest before  
silence falls on the  
wind and sand and sea.

Breathe deep.

Let go.

And lose yourself

in the wonder.

**when you  
take a shower**  
where does  
your shower  
take you?

Kohler® brings you a complete spa solution with the DTV+™. Designed by experts, this digital showering system combines water, sound, steam and light together for a showering system like no other.

# what is dtv<sup>+</sup>?

DTV+™ is our most advanced showering system and the industry's first SPA Solution.

It is a digital thermostatic valve (DTV) system that controls four elements to give you a true multi-sensory showering experience. Every element of your showering experience is completely customizable to your needs and is controlled by the touchscreen interface. There's nothing quite like it for the home, and it's only from Kohler®.

For more details on spa configurations visit [dtvplus.kohler.co.in](http://dtvplus.kohler.co.in)

# spa experiences

## Energy, Relaxation and Well-Being.

Inspired by Sebastian Kneipp's revolutionary wellness therapies, also known as the 'Kneipp cure', DTV+™ can take your daily shower ritual to another level.

It features pre-programmed spa therapies scripted with the help of Anne Bramham, the world's premier spa consultant, and inspired by one of three themes: Relaxation, Well-Being or Energy.

Think of them as a playlist for your shower where the power of water, light, sound and steam can cleanse both body and mind.

DTV+™ system allows up to 3 interfaces and 2 temperature zones on the same system for increased ease of use.

Jump start your day with Contrast Therapy, where contrasting hot and cool intervals cascade across your body focusing on your pulse points.

Contrast Therapy is applied to the whole body with long sequences of hot water followed by short sequences of cold water.

The contrasting temperatures of the water have a big impact on the nervous system, skin, blood circulation and heart rate.

# energy

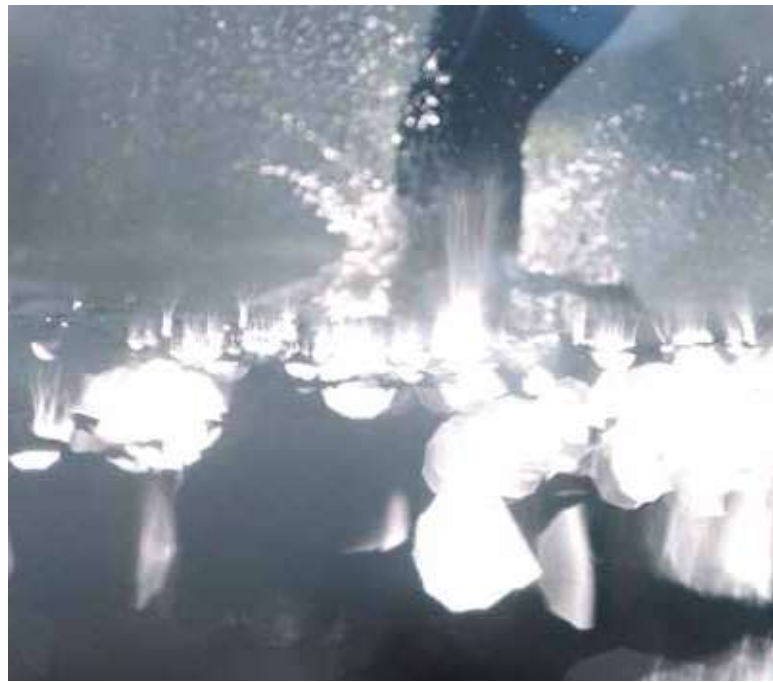

# relaxation

Bask in the rejuvenating power of water and heat with Traditional Hydrotherapy to calm the nervous system, with one of our relaxation experiences.

Alternating bursts of water with targeted temperature of 32°C and 41°C work on exhausted muscles and de-stress the mind from the daily grind.

This experience relaxes the body by reducing stress.

Become refreshed and renewed with the Decongestion Therapy, as water warms your pulse points and completely envelops your entire body with one of our well-being experiences.

This experience is designed to improve cerebral circulation by increasing blood flow. Alternating temperatures stimulate blood circulation and release toxins while cleansing your skin.

# well-b

eing

# details at a glance

The pre-programmed spa experiences are designed to deliver specific spa-like benefits.

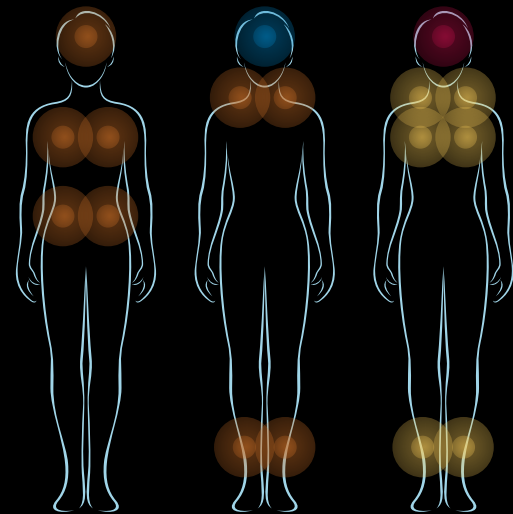

- The experiences vary in time and can be up to seven minutes long.
- You can vary the time of the experience by repeating or skipping individual steps.
- The intensity of each experience can be adjusted and saved as a user preset.
- Each experience coordinates water temperature and intensity to cycle through different showering components (rainheads, body sprays, etc.). The result is a unique spa experience developed with specific benefits in mind.
- The touchscreen interface automatically notifies you when new spa experiences are available if the system is connected to the internet via your home network.

# control the elements

**Water** DTV+™ works with one or two valves. Each valve gives you six, three or two ports that run different showering components simultaneously.

**Music** Add a KOHLER® Amplifier and SoundTile® speakers to introduce music into any showering experience. Amp yourself up for the day or unwind from the daily grind with your favorite playlist.

**Steam** Add a steam adapter and steam generator to bask in the rejuvenating embrace of a soothing steam experience.

**Lighting** Add lighting elements to control every aspect of the entire ambience. It will set the mood for your very own spa retreat.

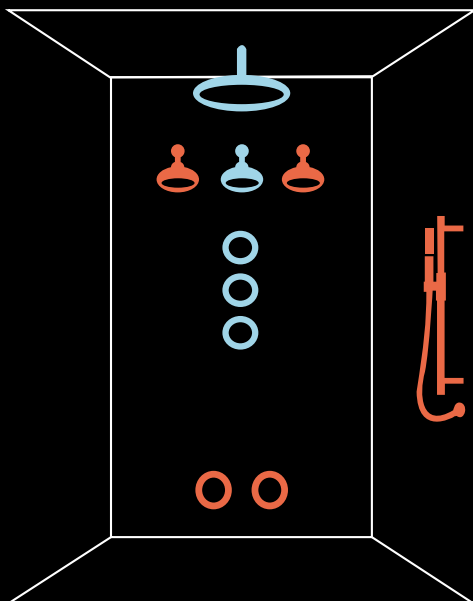

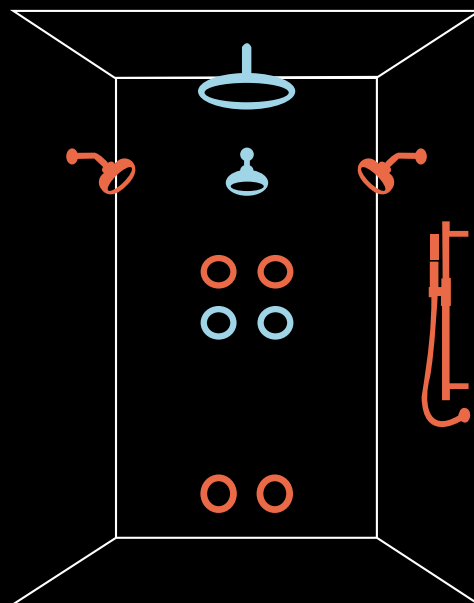

# choose your SPA configuration

You can now choose from varied experiences depending on your requirement. The modular design of DTV+™ allows for multiple pre-configured options, each delivering an unparalleled and unique showering experience.

## Premier Configuration

As our most comprehensive showering system, the Premier SPA experience includes a rainhead component to relax the entire body. It also features a body spray and handshower for the upper back, lower back and feet. With its signature two temperature zones, it delivers a showering experience that promotes Well-being, Energy and Relaxation.

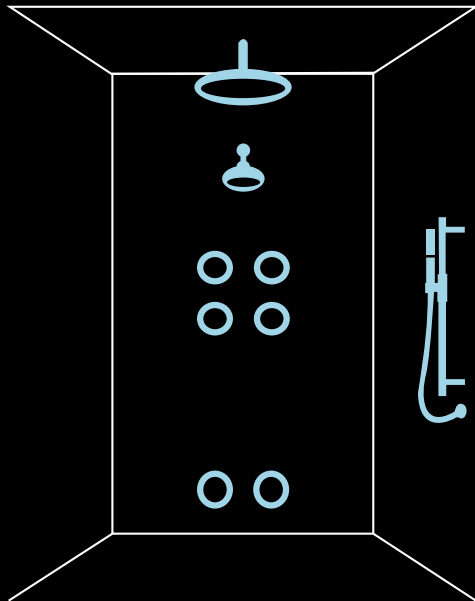

## Supreme Configuration

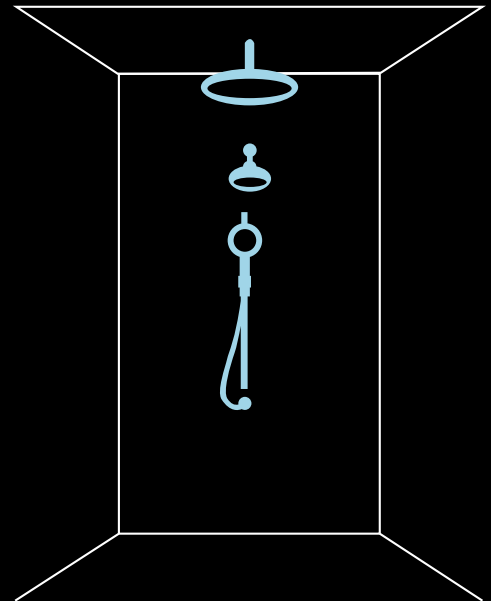

It includes body sprays and showerheads to ensure that tense muscle groups in the body become progressively relaxed. When coupled with our signature two temperatures zones, the Supreme SPA configuration delivers a rich experience like no other.

Note: Different colours of the showering elements denote different temperature zones.

Executive Configuration

Deluxe Configuration

# intuitive control

The touchscreen interface provides convenient, intuitive control of every component—from water delivery to music selection to lighting.

Built using state-of-the-art intelligent software, the interface displays only the connected modules to aid navigation. It is completely waterproof and works with wet fingers.

Six user presets allow you to create and save your favorite experiences. And the digital touchscreen eliminates the multiple levers and knobs of a manual shower, giving you a clean, uncluttered shower space.

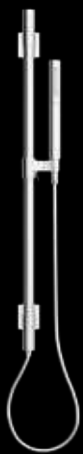

A close-up photograph of a person's hand adjusting a shower handle. The hand is positioned in the center-right of the frame, with fingers gripping a white, textured handle. Water is spraying from the showerhead in the background, creating a bokeh effect of light circles. The overall scene is dimly lit, emphasizing the contrast between the hand and the water spray.

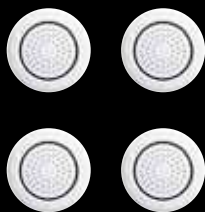

# dual temperatures

Installing two valves in your DTV+™ shower allows you to run two different temperatures simultaneously.

The experience of the contrasting temperatures cascading across your body is like relaxing in a hot spring atop a snow-swept mountain. There's nothing else quite like it for a home shower experience.

**Handshowers**  
add versatility and  
functionality to your  
showering experience.

**Body Sprays**  
deliver a targeted spray  
of water to help ease and  
relax your body.

**Foot Sprays**  
elevate an already  
luxurious experience  
to another level.

**Showerheads**  
provide a wide range  
of KOHLER® spray  
experiences and many  
feature an easy-to-clean  
MasterClean™ sprayface.

### **Rainheads**

feature Katalyst® spray technology for air-infused water droplets that deliver a big water experience.

# select your components

DTV+™ requires one or two valves for the complete experience. Each valve provides either six, three or two ports that are automatically controlled through the digital touchscreen. Each port runs a different showering component to deliver the customized showering experience of your dreams.

These finishes are Order to sell and are ordered exclusively upon order. The lead time for these products is 3 months, T&C apply. Please contact your Sales Representative for more information.

dtv  
prompt.®

## Be Smart. Be Prompt.

Transcend your regular shower routine with the DTV Prompt®, with greater precision, control and customization than a manual shower. With its easy-to-use intuitive interface and digital thermostatic valve technology for accurate temperature control, the DTV Prompt offers a shower experience like no other.

### Complete Customization

Choose the components for your perfect shower; from a rainhead to a showerhead, from a handshower to body sprays.

### Safe Temperature Control

The DTV Prompt® limits the maximum temperature your water can reach, making it perfect for families with small children.

### Pause Your Shower

You can perform the rest of your regular routine, like washing your hair or shaving, without the water running.

### Shower Timer

DTV Prompt is perfect for setting shower limits in busy households or for water conservation concerns.

### Run Multiple Components

Handshowers, body sprays, bath faucets, rainheads and more can be run separately or at the same time.

## DTV Prompt® Is Flexible.

DTV Prompt works with many showering components on one, two or three-outlets, and it allows you to change between them with the push of a button.

Three-Outlet

### One-Touch Operation

On / Pause / Off

### Large Digital Display

The large 7¾" x 2" interface with intuitive LCD display is incredibly easy to use

### Simple Diverter Control

Toggle between outlets with the push of a button

### Precise Temperature Control

Digital thermostatic valve technology guarantees accurate and safe temperature control

## DTV Prompt Is Versatile.

DTV Prompt is an easy way to bring digital showering to any bathroom. It works with three main setups: bath only, shower only and a bath/shower combination.

Bath

Shower

Hand Shower
