ENERGY EFFICIENT  
WATER HEATING

TANKLESS WATER HEATERS

AN ENERGY  
EFFICIENT  
ADDITION TO  
YOUR HOME

DRIVEN  
BY PURE  
PERFORMANCE

A gift from the Himalayas, the Zānskar River is a source of life, and a symbol of purity and never ebbing energy. That's the stuff we're made of – **Pure Performance.**

At a time of global change, we believe that water, air and energy are integral to life and that these can and should be made accessible to everyone, in its purest form.

We bring you a range of products and solutions for the home which are designed in India placing highest importance on performance and customer experience.

And like the Zānskar valley, with conservation in mind, we acknowledge the beauty and fragility of the ecosystems we live in and promise to enhance ones quality of life with thoughtful products and services.

**ZĀNSKAR**  
PURE PERFORMANCE

## What is a tankless water heater really?

Tankless water heaters as the name suggests do not have a tank hence no storage. They heat the water on demand when you turn on the tap.

Lack of water storage avoids expensive heat losses resulting in savings in energy and maximum convenience for users.

## Why tankless water heaters are a smart choice for your home?

**Saves Power**

**Saves time**

**Saves Space**

**Provides unlimited supply of hot water**

## How does the tankless water heater work?

Appliance turns off as soon as the tap is turned off. No power is consumed until the hot water tap is turned back on

ZANSKAR  
HOTSPRING™

## TANKLESS WATER HEATER

- 6-9 kW
- Hot water for your bathroom

# Why the Zanskar Hotspring™ tankless water heater?

**Nickel-Chromium Heating Elements for efficient heating**

**2 way installation**
